

Warming Up Our Home with Heartfelt Colors

COZYING UP WINTER DAYS WITH ROSES, TULIPS AND HEART-INSPIRED DECORATIONS

THE ENTRYWAY Tulips, pussywillows and lots of hearts decorate the front porch.

HEARTS & FLOWERS The metal basket on the front door is filled with flowers - topped off by a huge shiny heart.

LIVING ROOM Our special kitty pillows in honor of Andy and Sophie dress up the living room couches.

KITCHEN The baker's rack houses tea towels, cookbooks - and hearts!

DIGITAL STUDIO & SITTING ROOM

Just off the master bedroom is my digital design studio - complete with a fireplace. This is also a gracious sitting room for receiving and interviewing clients.

PAINTING STUDIO & LIBRARY

This combination space stores art books and backstock of my product. It is filled with natural light - perfect for painting all the detail that makes my artwork unique.

DINING ROOM April Cornell's vintage cabbage rose linens and heart-based champagne flutes set the stage for a festive Valentine's Day celebration with friends.

FAMILY ROOM Tulips on the dinnette table add color to this hospitable space.
