DECORATING OUR COTTAGE FOR COZY WINTER AND VALENTINES DAY!

**THE MASTER BEDROOM SUITE AND DOUG'S DEN** ● (12-15) Our master bedroom is decorated with the feel of a Spring meadow. Vintage linens created by Liz Claiborne warm the heart and remind us that Winter will not last forever!  
Doug's den offers a comfortable place for him (and guests when the sofa-sleeper is in use) to relax, watch some golf and debrief at the end of a busy day. Golf is the theme in this space - a homage to Doug's favorite sport and his passion!

**A FRIENDLY ENTRYWAY INTO OUR COTTAGE'S LIVING ROOM** ● (1-6) After a busy, busy Christmas, we're slowing down and catching up with folks we love in this cozy time of year. Winter's Valentine's Day is the perfect time to gather. Hearts, flowers and chocolates. What could be better!?!

**RED. AND WHITE** ● (7-11) Whimsical April Cornell Rooster-splashed linens and Valentine hearts dot our decor - especially cheerful this time of year when days are short and often chilly.

**THE GREAT OUTDOORS** ● (16) When the sun comes out - even if its chilly - we're often with pals enjoying a cozy fire, conversation, music and beverages with friends. .
